LEGISLATIVE COUNSEL'S DIGEST

AB 1827, as amended, Arambula. Workforce development: one-stop career centers.

Existing law provides for the payment of unemployment compensation benefits to eligible unemployed persons during the period that the person is unemployed, and requires the Employment Development Department to implement and administer the unemployment compensation program. Existing law, the California Workforce Investment Act, declares that it is the intent of the Legislature to deliver comprehensive workforce services to job seekers, students, and employers through a system of one-stop career centers to, among other things, make job outreach, intake, job search and placement assistance, and other related services available in one location.

This bill would require the department, commencing on or before July 1, 2011, to provide ~~in-person unemployment benefit~~ *unemployment insurance benefits* assistance at all ~~state comprehensive~~ one-stop career centers *and department workforce service offices*, as prescribed. The bill would require that the unemployment benefit assistance services required to be provided at these one-stop career centers *and department*

workforce service offices be funded with existing moneys available to the department for the administration of the unemployment compensation program, as specified. *These provisions would remain in effect through December 31, 2014.*
